## RE: INTRODUCTION OF THE NPF50 2 INCH STAINLESS STEEL PUMP, FLANGED, BOLTED

JDA GLOBAL is pleased to announce the introduction of the NPF50 2" S.S. pump, featuring a bolted design with flanged connections. The unit, equipped with the PWR-FLO™ air distribution system, gives the customer maximum efficiency and safety.

The bolted design is favored by many in the chemical transfer industry, while the flanged connections are less susceptible to leaking when properly tightened.
