RE: INTRODUCTION OF 3" S.S. BOLTED PUMP

JDA GLOBAL is pleased to announce the introduction of the 3" Stainless Steel bolted, flanged pump. This model features the PWR-FLO™ air distribution system (pictured below in poly) as standard bill of material. This model is ideal for aggressive, bulk chemical transfer. This NPF80 S.S. model features ANSI flanges.

The bolted model joins its 3" S.S. companion unit in the clamped version. It also expands the NOMAD "family" of bolted S.S. units available to rival your competition in the market.
