RE: NOMAD INTRODUCES THE NTG80 3 INCH STAINLESS STEEL PUMP

JDA GLOBAL LLC is pleased to announce the introduction of the NTG80 3 inch 316 Stainless Steel pump.

The arrival of the 3" S.S. NTG80 gives our end users the ability to transfer larger volumes of corrosive fluids, such as bulk chemical transfer and tank loading and unloading. The NTG80 joins our 1/2", 1" 1.5" and 2" S.S. already available.

The NTG 80 S.S. model features aluminum die cast air chambers along with the NOMAD® TRANS-FLO GOLD™ air valve design, well-suited to handle all types of compressed air quality.

ORDER NOW...
