RE: NOMAD™ INTRODUCES THE NPF50 2 INCH ALUMINUM BOLTED PUMP

JDA GLOBAL LLC is pleased to announce the introduction of the NPF50 2 inch aluminum, BOLTED pump. This model also features a FLANGED connection as standard bill of material.

The bolted design is favored by many in the chemical transfer industry, while flanged connections are less susceptible to leaking and breakage.

The NPF50 aluminum bolted model is available with the PWR-FLO® air valve design, our most reliable transfer system.
