RE: INTRODUCTION OF QUICK READ (QR) CODE SYSTEM TECHNOLOGY

JDA GLOBAL is pleased to announce the introduction of its QR code reader system. Simply download a QR app, then “point and click” your smart phone toward the Pump ID tag (on the pump or box). If you do not have the app, use phone camera and point toward the tag, wait for the drop down prompt, followed by “open “bit.fly” in SAFARI, then click.

The Operation Manual for the specific pump will appear. This allows one to view curves, dimensions, exploded views, etc. in real time.

QR Code Technology :
Available for all pumps shipped on or after JUNE 1, 2020
